

The health and well-being of our customers and employees is our highest priority.

Like many others, we are closely monitoring Coronavirus (COVID-19) and following guidelines from the Centers for Disease Control & Prevention (CDC), the World Health Organization (WHO), Wisconsin Department of Health and other local and national health organizations. Based on this information, we are taking comprehensive measures to ensure the health and well-being of our employees.

We continue to receive the most up-to-date information and we're taking extra precautions to maintain and ensure the highest level of safety and sanitation in our facilities, including:

- StoneRidge has comprehensive cleaning and sanitization protocols in place for our facilities. We will be taking additional measures to increase sanitation throughout our facilities.
- Any employees experiencing symptoms are asked to work remotely or remain home.

On March 19, 2020 Stoneridge Wholesale Division, will discontinue production at our Wautoma facility and have reduced our staff at our Coloma facility but will still be shipping orders, and hope to resume production on April 6, 2020. We're taking it week by week, and will continue to reassess and communicate as plans evolve.

Duane Detjens – CEO
